

## Part & Package Color Key

PART NO.	PART COLOR	PACKAGE COLOR
I-1	Y	R

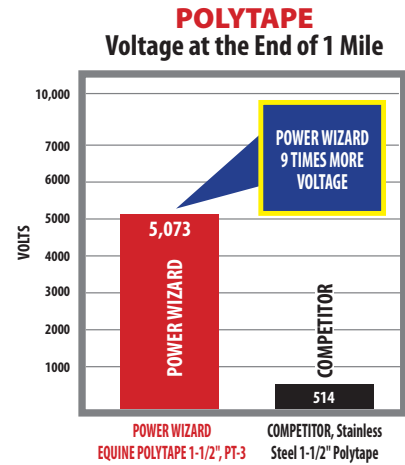

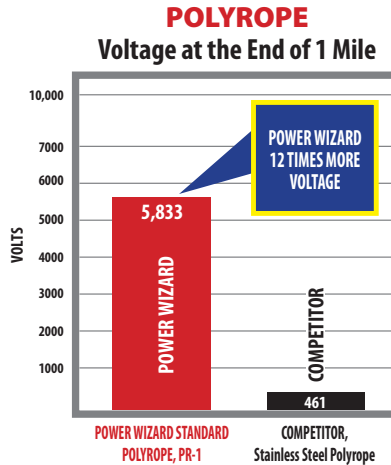

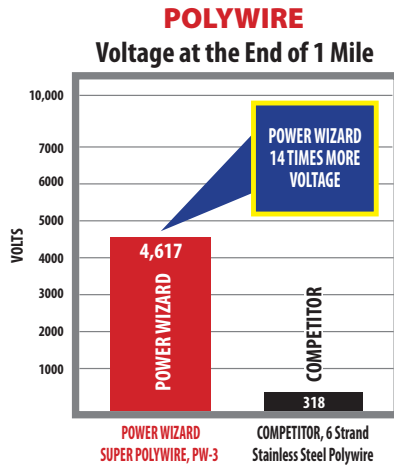

PART COLORS	PACKAGE COLORS
Y = Yellow	S = Silver (Equine System)
B = Black	R = Red (Standard System)
W = White	Y = Yellow (High Tensile System)
X = Metal	B = Blue (Solutions System)

## The Power Wizard Advantage

Starting voltage in this example is 7,000 volts with 500 ohm fence load.

**IMPORTANT!** Minimum of 2,000 volts along entire fence length is necessary for successful containment of most animals.

## Electric Fence Wire

All Power Wizard Polywire, Polyrope and Polytape models feature a mixture of tinned copper conductors and stainless steel conductors, twisted in a special UV protected polyethylene weave.

### POLYROPE

**PR-1 POLYROPE EQUINE, 656FT/200M.** 1/4" diam. Super conductive with 6 strands made up of tinned copper and stainless steel.

### STANDARD POLYTAPE

**PT-1 POLYTAPE 1/2" WIDE, 656FT/200M.** Super conductive tape with 5 strands made up of tinned copper and stainless steel.

**PT-2 POLYTAPE 1/2" WIDE, 1312FT/400M.** Super conductive tape with 5 strands made up of tinned copper and stainless steel.

**PT-3 POLYTAPE EQUINE 1.5" WIDE, 656FT/200M.** Super conductive tape with 12 strands made up of tinned copper and stainless steel.

**PT-4 POLYTAPE EQUINE, 1.5" WIDE, 1312FT/400M.** Super conductive tape with 12 strands made up of tinned copper and stainless steel.

**PT-5 POLYTAPE EQUINE, 1.0" WIDE, 328FT/100M.** Super conductive tape with 8 strands made up of tinned copper and stainless steel.

**PT-6 POLYTAPE EQUINE, 1.0" WIDE, 656FT/200M.** Super conductive tape with 8 strands made up of tinned copper and stainless steel.

### POLYWIRE

**PW-1 POLYWIRE 656FT/200M.** 0.10" diam. Highly conductive wire with 3 strands made up of tinned copper and stainless steel.

**PW-2 POLYWIRE 1312FT/400M.** 0.10" diam. Highly conductive wire with 3 strands made up of tinned copper and stainless steel.

**PW-3 POLYWIRE 656FT/200M.** 1/8" diam. Super conductive wire with 6 strands made up of tinned copper and stainless steel.

**PW-4 POLYWIRE 1312FT/400M.** 1/8" diam. Super conductive wire with 6 strands made up of tinned copper and stainless steel.

**PW-5 POLYWIRE 2624FT/800M.** 1/8" diam. Super conductive wire with 6 strands made up of tinned copper and stainless steel.

**PW-6 POLYWIRE 275FT/84M.** 0.10" diam. Highly conductive wire with 3 strands made up of tinned copper and stainless steel.

**INSULATED WIRES & TUBING**  
**W-2 50FT COIL UNDERGROUND & HOOK-UP WIRE.** Double insulated. 14 GA.  
**I-24 50FT COIL INSULATOR TUBING.** For insulating smooth wire. (I-24BB) Black.

### The Strength of Stainless Steel + The Super Conductivity of Tinned Copper = HIGH VOLTAGE ALONG THE ENTIRE FENCE LENGTH

- Stainless steel provides excellent strength.
- Tinned copper provides excellent conductivity.
- POWER WIZARD combines the strength of stainless steel with the super conductivity of tinned copper.
